Requirements to hold Combined Event

- Drivers Stand Must be capable of holding 15 drivers for qualifying. (ie, must be approx. 12 metres long.)
- Pitlane preferably be able to accommodate 15 entries in qualifying .
- Racing day should be limited to 8.30AM – 5.30PM except for exceptional circumstances.
- Format for meeting can be either all classes racing together or can be run as separate sections. Format must be clearly stated on entry form.
- Entry fees will be
 - \$60 for Buggy
 - \$60 for Truggy
 - \$45 for Stadium Truck
 - \$45 for Monster Truck
 - fees are recommendation only hosting club has final say.

Competitors wishing to race in 2 classes will pay full amount for both classes.(ie Buggy/Truggy \$120) . Maximum 2 classes per competitor. Dual Entrants will have to nominate their primary and secondary class. If numbers are reached by primary entries the last entered secondary entrant will be removed from that class. The entry will only be confirmed when payment has been received . Any entrant that is denied their secondary entry must be notified immediately and will have their entry fee for that class refunded .

To be assured of a fair and transparent method of entry it is necessary to use online nomination system such as Slyfox or similar. If clubs are not confident of using this system AARCMCC officials will help to administer .

Closing date for entry will be 3 weeks prior to event . Late entries will only be accepted at discretion of Host Club.

All marshalling commitments must be met .Continual Failure to marshal a secondary class can result in qualifyers lost in the Primary class.

Truggy and Buggy class can be larger if Stadium and/or MT classes are not run.

If Numbers require qualifying rounds can be dropped to 4 or 5 rounds total (as per existing rules.) This would hopefully be a last resort but is probably preferable to denying entries a chance to compete .
